

THE ESSENTIAL TOOL FOR FRONTLINE WORKERS

Digital Enablement for Food Manufacturing

Beekeeper is the single point of contact for your frontline workforce. With all communications and systems in one place, teams can save thousands by improving productivity and QC, reducing safety incidents, streamlining SOPs, and becoming more cost-efficient.

With Beekeeper, teams can resolve issues faster and manage non-routine work more efficiently, thanks to an intuitive employee experience and seamless integrations.

Some of our customers include:

Here's how to improve productivity, safety, agility, and QC with Beekeeper...

- Distribute updates in seconds to mobile devices and digital signage
- Click to translate any content into 100+ languages
- Stay compliant with food safety regulations using video trainings and digital forms
- Confirm that emergency comms and health & safety information have been read
- Reduce coordination time by 99% with chats, bots and mobile shift schedules
- Provide a forum for recognition & feedback to reduce turnover by up to 40%
- Connect your systems with 2000+ possible integrations and an open API

Easy, Email-Free Access Anywhere

Frontline workers lose on average 3 hours per week looking for information. Make it accessible on mobile apps, web, tablets, and digital signage to increase productivity.

Get More Out of Your IT Investments

Integrate securely with your existing systems to make information accessible for everyone, remove login barriers and save time on password management.

Gather Insights for Continuous Improvement

Optimize processes with input from frontline teams with mobile surveys and forms.

Secure & Compliant

Best-in-class encryption, advanced firewall protection, ISO 27001 certified data centers, and GDPR compliant.

Personalized Support

Our Customer Success experts will guide and inspire you to achieve your desired business impact with Beekeeper.

"Communication and operations with our frontline employees have definitely improved since adopting Beekeeper. We have continued to make gains year over year and we truly feel that our Beekeeper app is a tool that has helped us to do that."

Jeremiah Mallard

Animal Handling Transport Manager, Seaboard Foods
